Lora,

I'm going to miss you next year.

What can, or how can I express my feelings in words.

I know I'm not as faithful as I ought to be to you but

I am trying to understand you more than I do!

I think, if it matters what I think, that you are the most wonderful girl in the world, and you are too good to me!

I know you are going to be a success in life because you are what makes me want to succeed. I think you know how I feel about you. And I know how you feel about me! What more could we really want, than each other?

If we ever break up, Lora, I want still to be your best friend. But we aren't going to break up.

So to My little Short, Sweet, Wonderful girl.
The one I love with all heart. I give my heart to you. With all my Best Wishes. and Blessings. Because I want to be yours forever.

Rogers

Keep right with God. He's your all and maker.

Lora, I can't express my feelings in words.

But you know how I feel

Love always and forever

DEDICATION

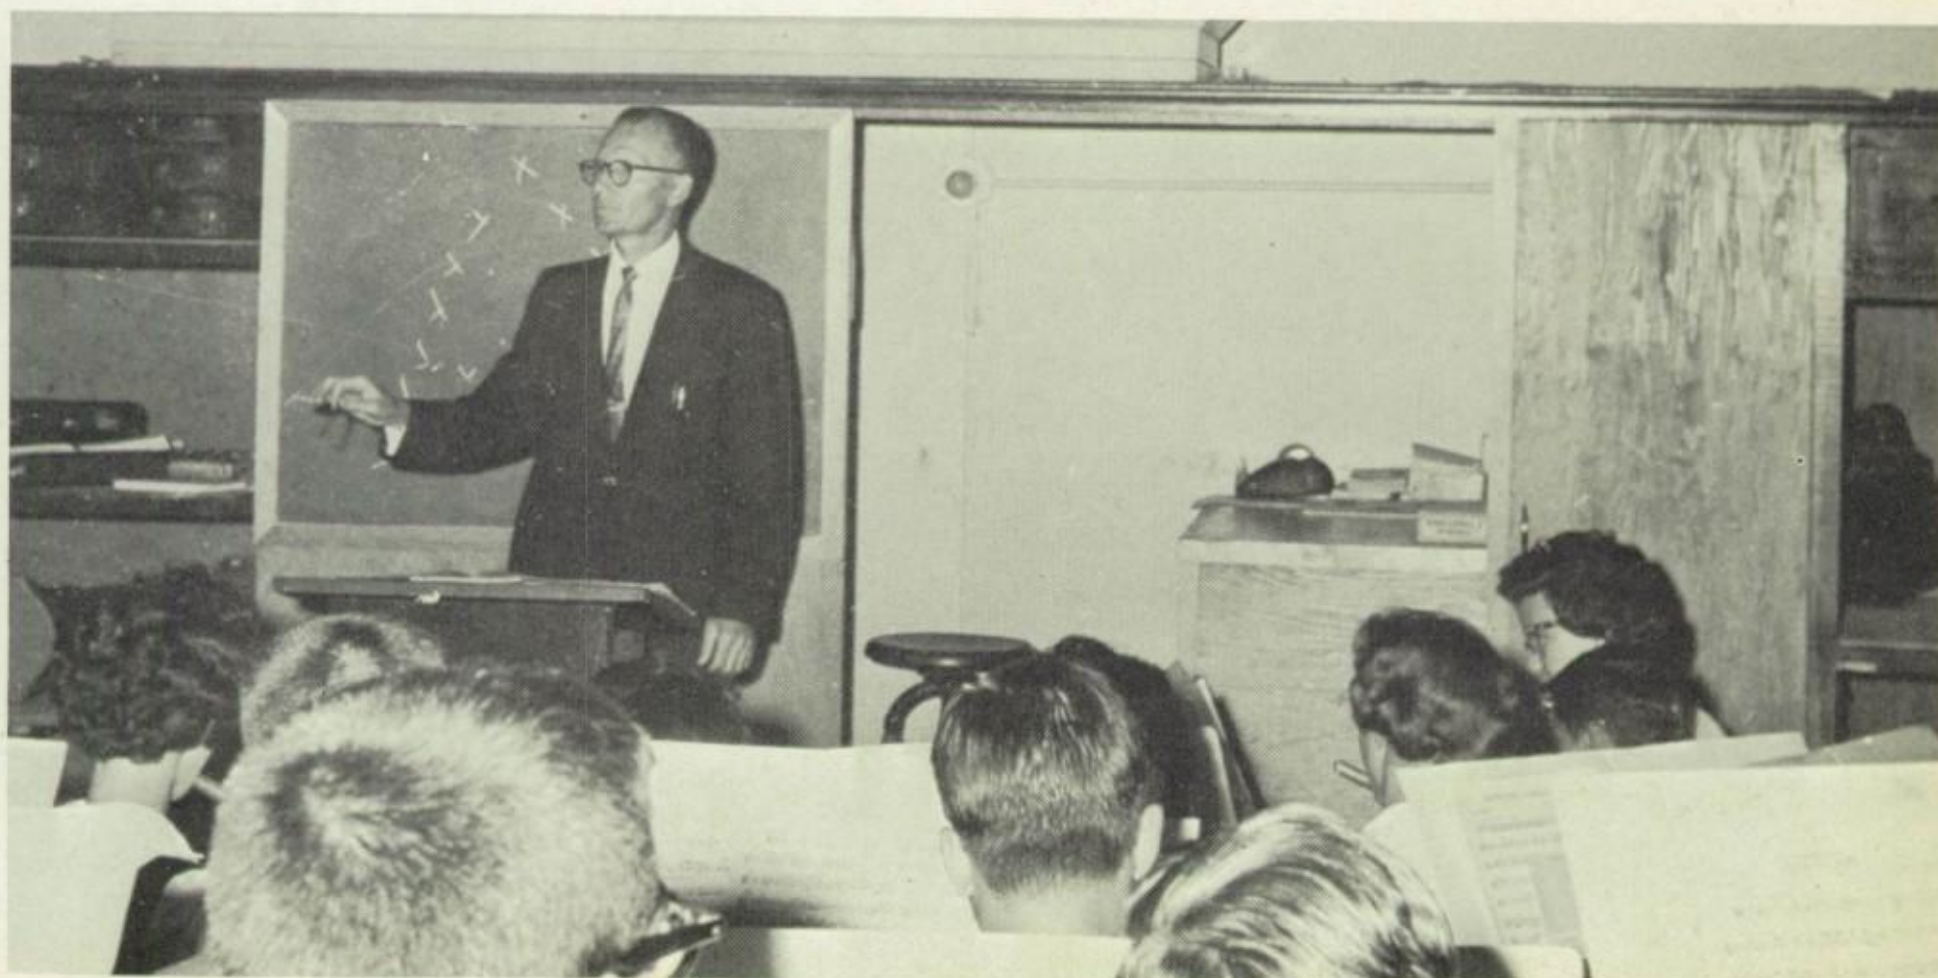

"The goal of yesterday will be the starting point of to-morrow." — Carlyle

This attitude is typical of Mr. Albert Fitzgerald, to whom the journalism department proudly dedicates the 1962 CRITERION.

Mr. Fitzgerald, as director of the Ardmore High School Band, contributes much toward the development of the school. His diligent work is reflected by the excellent performance of the band, the many honors and recognition brought to Ardmore, and the pride which the entire school has for this organization.

Mr. Fitzgerald continuously strives for improvement. He uses the high goals attained by the "Pride of AHS" as a basis for enriching and developing to the fullest the abilities of each band member.

It is therefore with great honor that we dedicate this CRITERION to you, Mr. Fitzgerald, for your wise foresight and intent devotion.

EDUCATION

English

"Is it really that funny, Beverly?"

In the English courses students study the literature of their own language. By practicing the arts and principles of composition, they become better able to express their own thoughts in writing.

Sophomores, under the instruction of Miss Kaylin Dupree, Mrs. Juanita Cunningham, Mr. Jerry Young, Mrs. Marie Morse, and Miss Peggy Holder, study grammar and a potpourri of literature, ranging from the short story to "Julius Caesar."

Juniors gain a deeper conception of American heritage by studying the writings of their countrymen. Instructors are Miss Dupree and Mrs. Kathleen Wade.

Seniors, under the direction of Mrs. Julia K. Sparger and Mrs. Jewel Hooper, study English literature from early Celtic times to the present day.

"I can't think of the last line of that poem."

"Was that quote from Moby Dick?"

"Only five minutes left to study before the test."

Speech

Under the direction of Mr. Jerry Young, speech students learn the techniques of self-expression through speaking. The principles of make-up and stage production are also studied.

Once these skills are acquired, they can be put into practice through debate, plays, and oration.

With all that assistance, Billie should make a good speech.

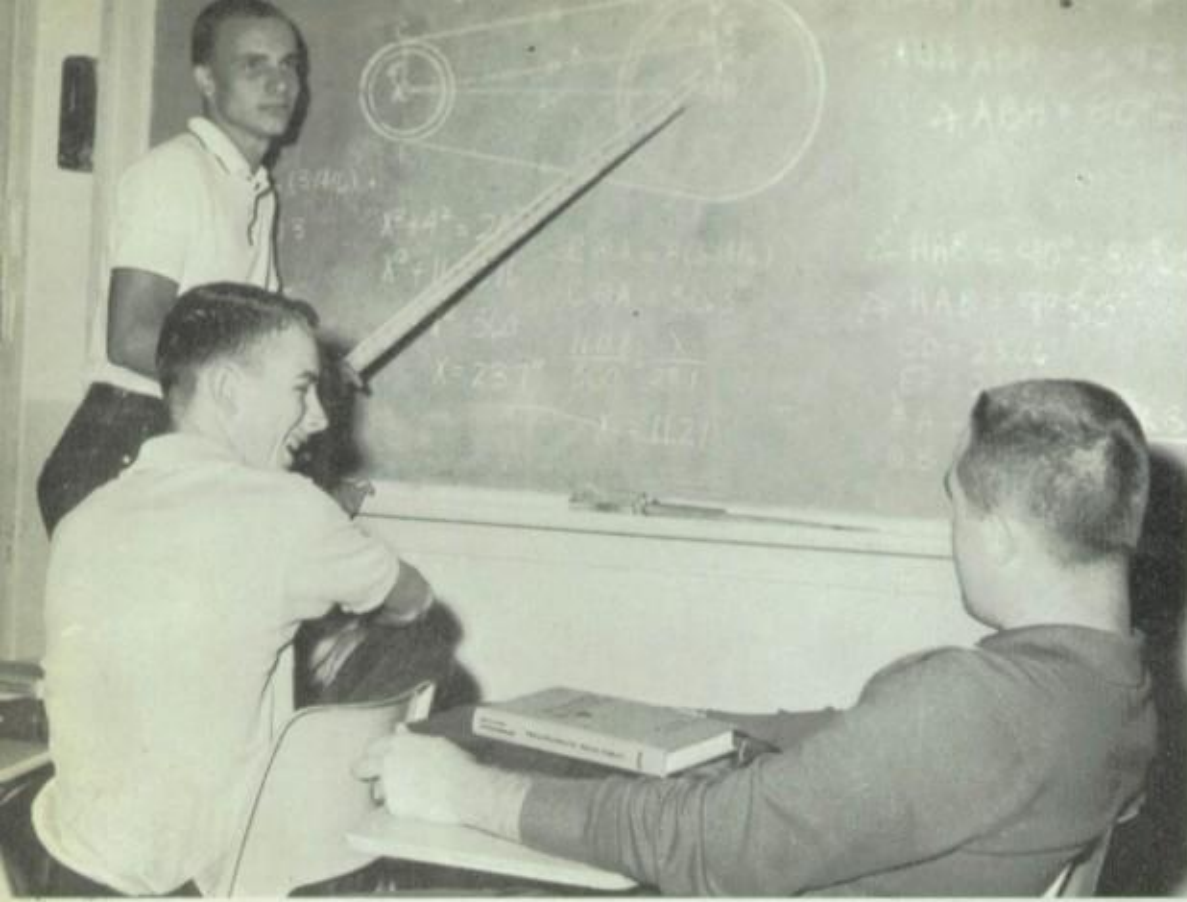

"When I click this button, you may begin."

"In conclusion, I repeat that school spirit is essential to any student body."

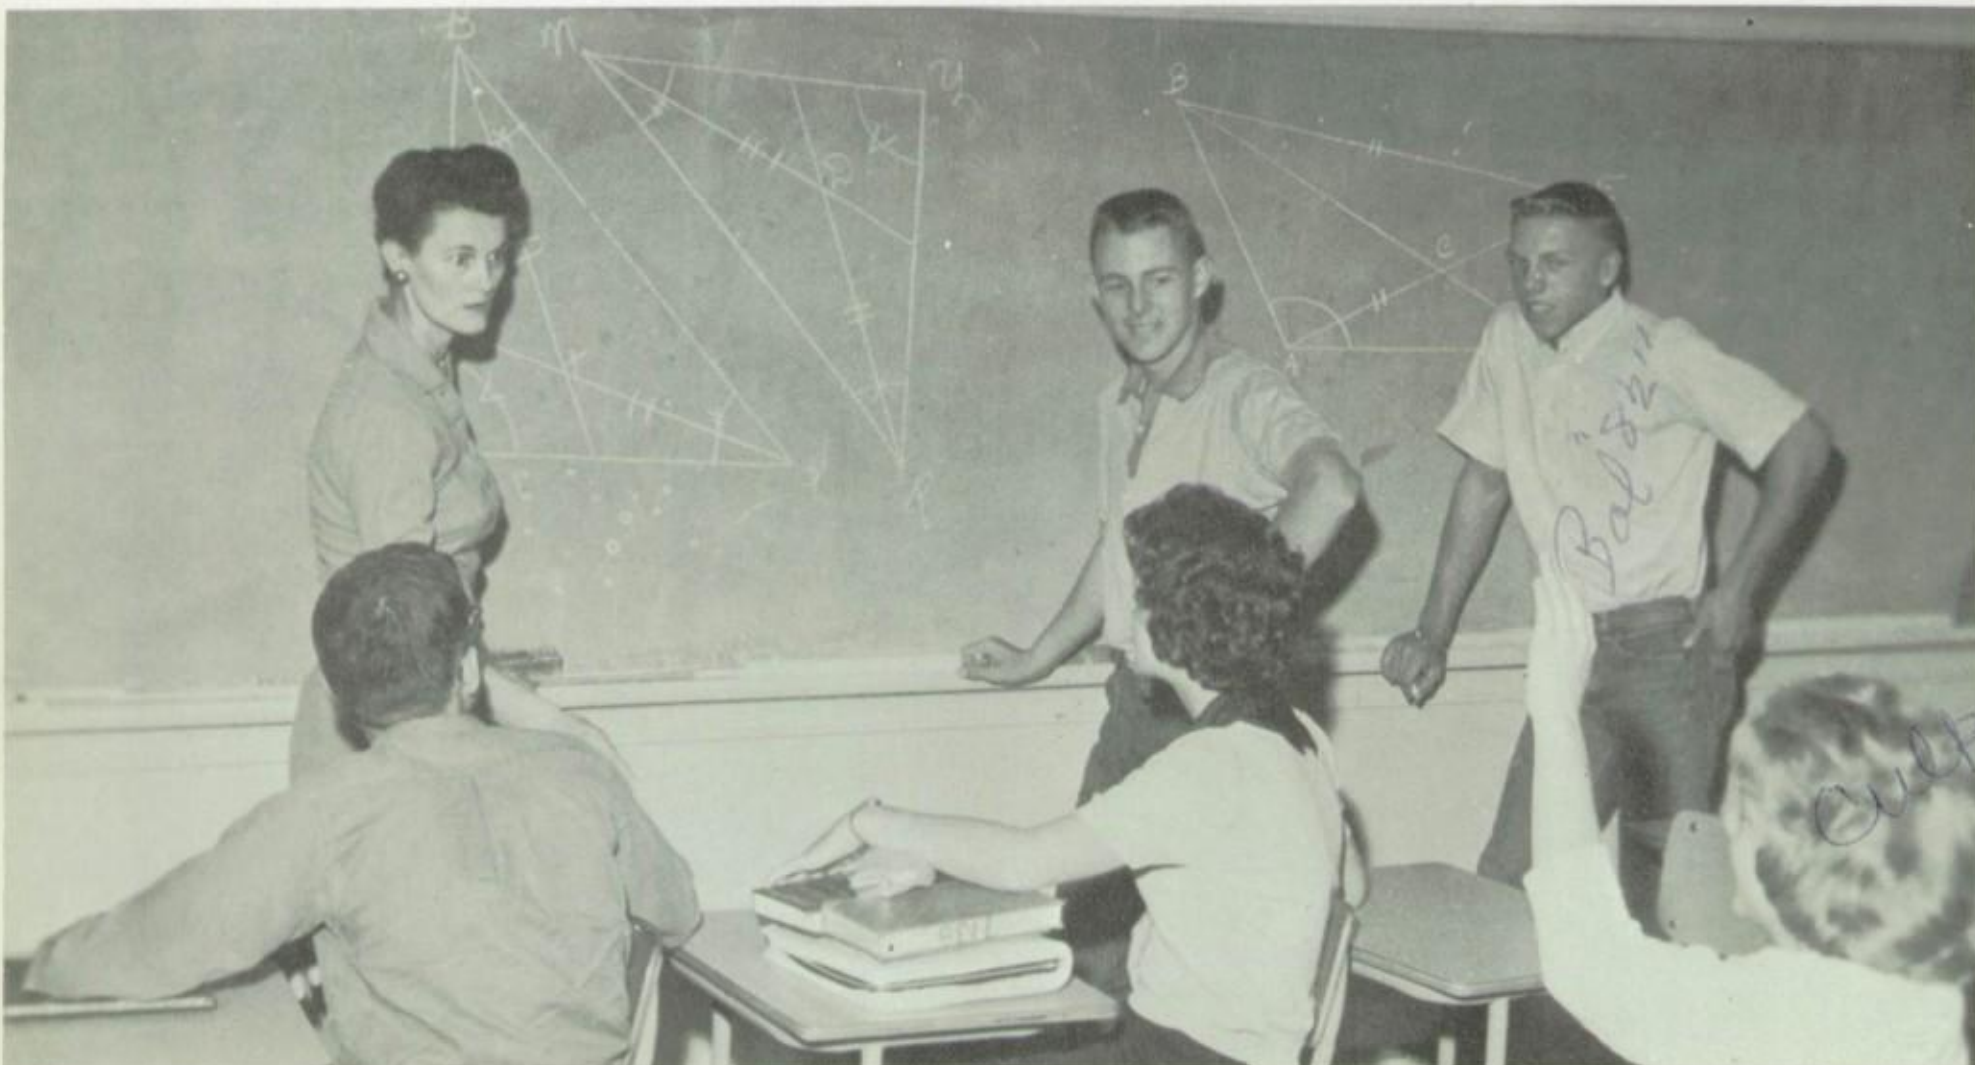

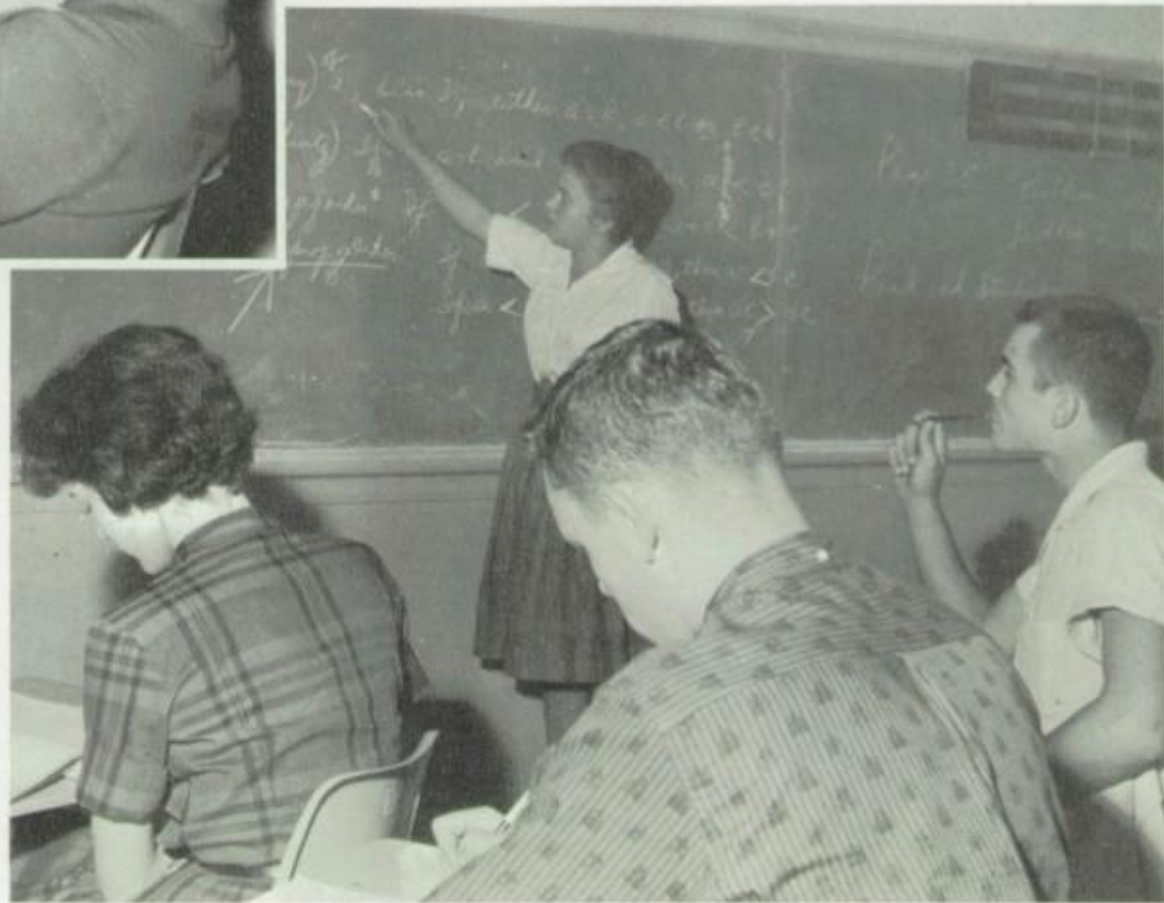

Mathematics

Algebra I and II, plane geometry, solid geometry, trigonometry and high school arithmetic are the mathematical courses offered by our school this year.

S.M.S.G. Mathematics, which presents math courses in modern, up-to-date methods, is being used for the third year in plane geometry. S.M.S.G. Algebra II is being taught for the second year.

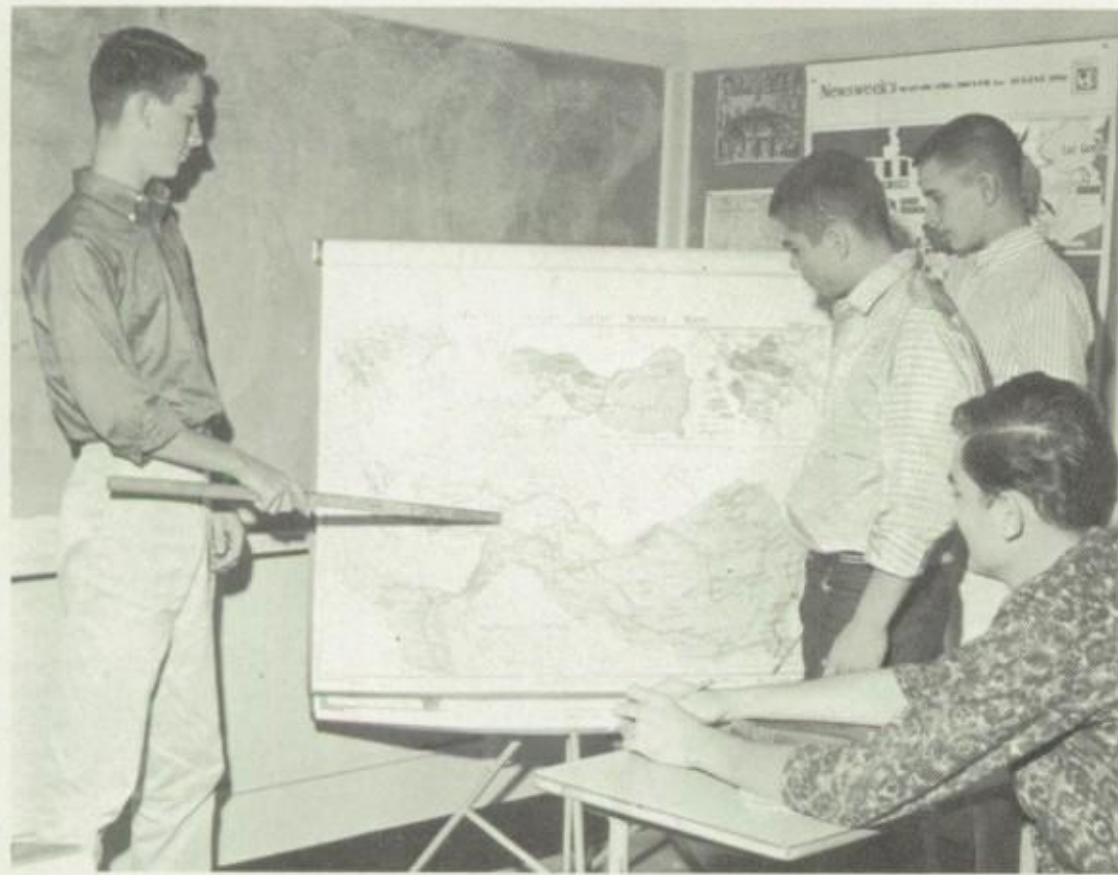

Taught by Mrs. Anita Ritchey, Mrs. Estaline Waters and Mr. Gordon Sturdevant, these courses give students a good background for the study of higher and more complex mathematics.

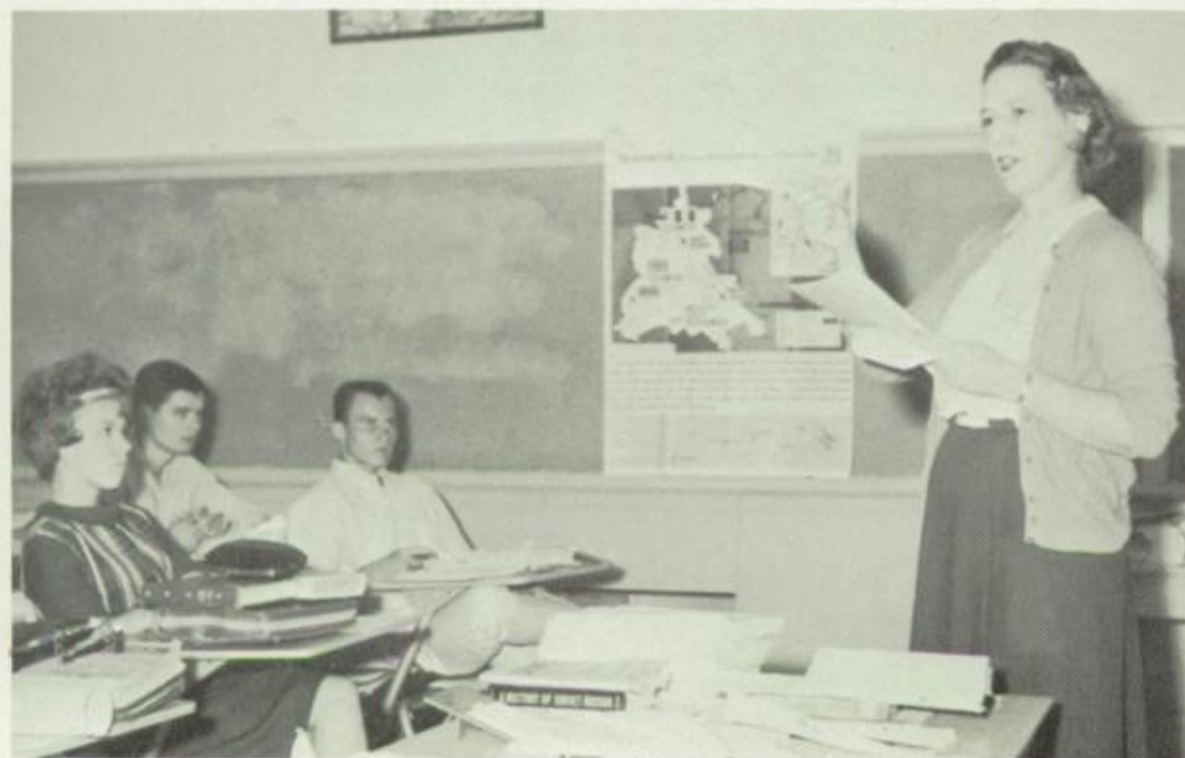

Mrs. Waters proves these triangles congruent with the aid of her students.

Through the social studies—world history, American history, Oklahoma history, civics, and psychology—students gain a better insight into the factors which have made our world and country what they are today. Not only the story of the world and its people are learned, but they learn to use this knowledge to improve present-day conditions.

Miss Gail McWilliams and Mrs. Juanita Cunningham teach American history; Mr. Eugene Todd, world history; Mr. Dan Davis, Oklahoma history and civics; and Mrs. Marie Morse, psychology.

"Planning a trip, boys?"

"Americanism is not just words — but actions!"

"Would you like to write a thousand word theme?"

Social Studies

Journalism

The journalism department offers one of the most useful and rewarding courses in school. Students taking the course gain a sense of responsibility in addition to applying their knowledge in the various fields of journalism.

Under the supervision of Mrs. Kathleen Wade, the journalism class publishes the school newspaper, Tiger Topics, and the yearbook, CRITERION, in addition to providing The Daily Ardmoreite with stories and pictures of school events.

Tiger Topics in the editing stage.

Each edition of the Tiger Topics is constructively criticized by the class.

Languages

*Lora,
It's been great this year
and we are all going to
miss having you in the
band next year who
you'd change your mind
you are a real sweet girl
and I wish you best of
luck in the future*

One of the goals of peace-loving people today is to understand their neighbors throughout the world. One way to do this is by understanding their language.

Latin I and II, taught by Mrs. Virginia Collins, is the basis of such languages as English, Italian, French, and Spanish. Through Latin a student can gain an insight into Roman history and ideals, which have had an impact on our country and world today.

In Spanish I and II, taught by Mrs. Olive Hibbard, the life and customs of the Spanish-speaking countries can be better understood.

A new subject added to the curriculum this year is French, taught by Mrs. Collins. Its appeal as a universal language makes it useful in almost any part of the world.

Physical Science

The resultant of two velocities acting at an angle to each other is the diagonal of the parallelogram constructed. . . .

With the aid of a modern science laboratory, students, instructed by Mr. Wes Sullivan, have an opportunity to put into effect the principles of chemistry, the science of the composition of substances and changes that occur in them, and physics, the science which pertains to non-living matter and energy.

Knowledge and application of these sciences have brought to the modern world many improvements.

"May I have a light, please?"

Biological Science

So that's a blowfish!

The primary purpose of the biology department is to instill in students an appreciation for the various forms of life in both plant and animal kingdom.

Students begin their studies with the lowest form of life—the one-celled plant—and continue through to the highest form—man.

Insect and plant collections, dissections, and microscopic studies are ways in which the instructors, Mr. R. E. Goins and Mr. Ralph Benham, increase the interest in this science.

The one on the left is a *Melanoplus Bivittatus*.

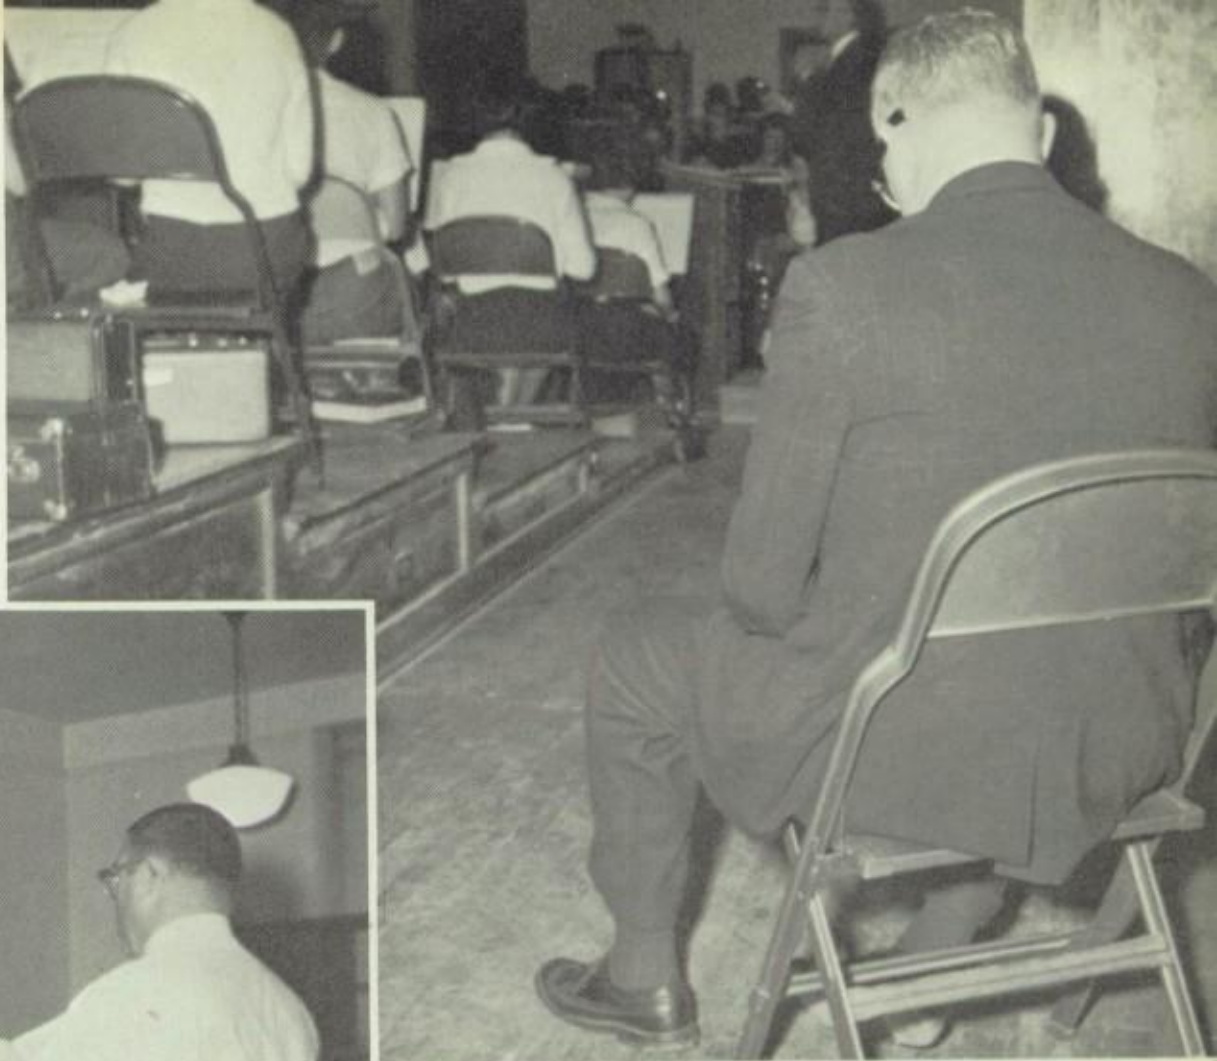

Throughout the school and throughout the city there can always be seen many examples of the work of Mrs. Myna Johnson's art students.

The ingenuity of these students makes creativity and industriousness synonymous with the art department.

Music

Vocal music is directed by Mr. Dan Davis. Mr. Albert Fitzgerald is director of instrumental music with Mr. Raymond Gabbard as instrumental assistant.

Both the band and the chorus have contributed to the Americanism program through music.

Working as a group or as individuals, the department brings much entertainment and pride to the school and the city.

Home Economics

Learning to be a good homemaker is the primary objective of the girls enrolled in Home Economics I and II and Home Nursing.

Mrs. Mary E. Busch instructs her students in such phases of homemaking as sewing, cooking, child care, first aid, and management of a household.

*Lara,
I've enjoyed being
inland with you.
Oh yes, don't forget
Geometry, although we
didn't understand it*

Jahala makes the band for her new skirt.

"I enjoy cooking, but these dishes . . ."

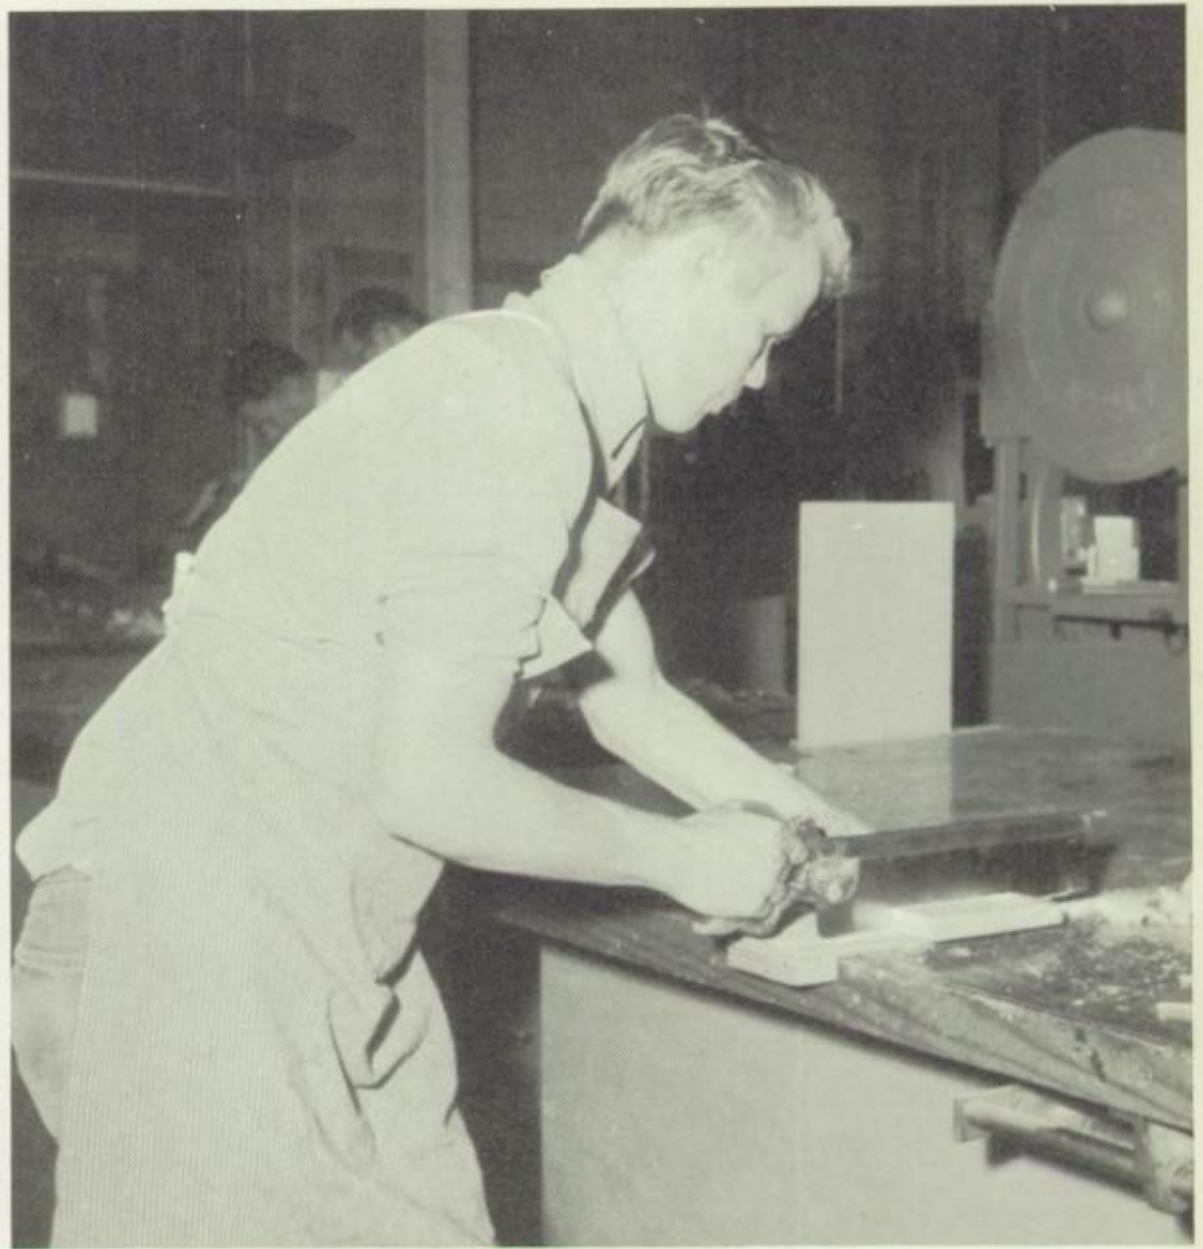

"Mary Kay, make it a three-inch hem."

Industrial Arts

Under the guidance of Mr. Gordon Sturdevant, Mr. Harry Dodd, and Mr. J. C. Dunn, industrial arts students apply their knowledge and skills of mechanical drawing, woodworking, and general metals in many beneficial projects.

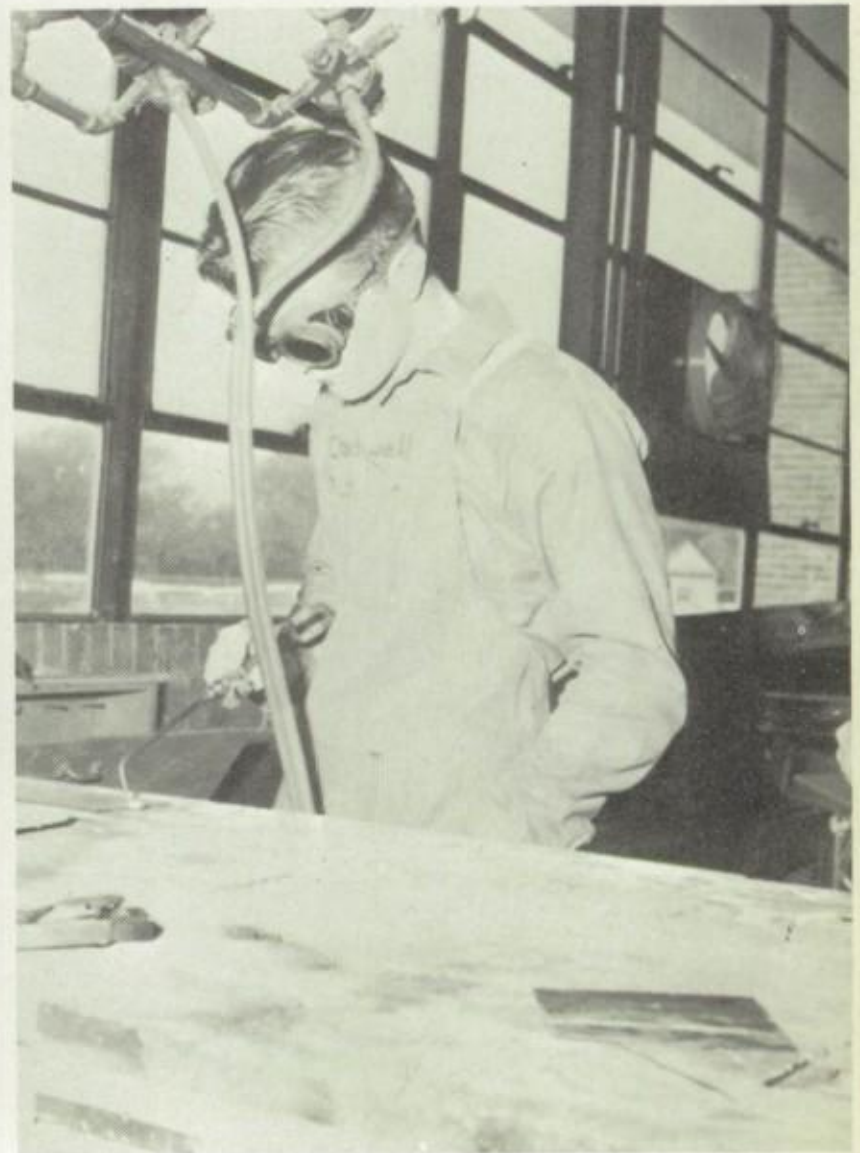

This training provides the students with a rich basic background in learning a vocation.

Whistle while you work.

"Now that it's level, what are we going to do with it?"

Creigh works on a metal project.

Girls' Physical Education

Approximately 160 girls, under the direction of Miss Peggy Holder, learn not only the importance of physical fitness, but also the importance of character and emotional well-being.

The girls participate in such activities as badminton, tennis, horseshoes, basketball, softball, table-tennis, soccer, speedball, and exercises.

"Now, let's try it with the ball —"

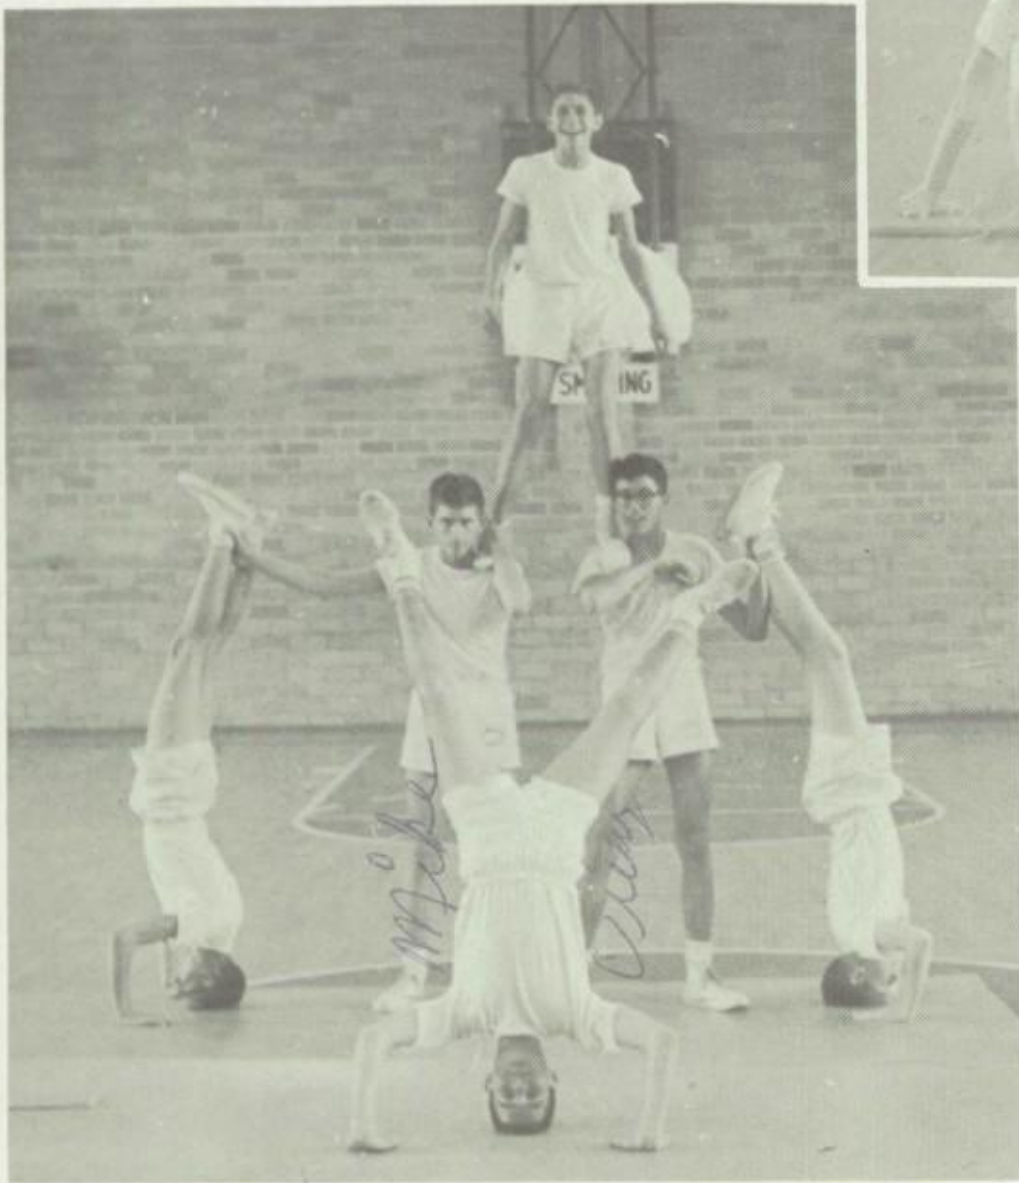

"But, girls, this is volleyball, not basketball!"

Boys' Physical Education

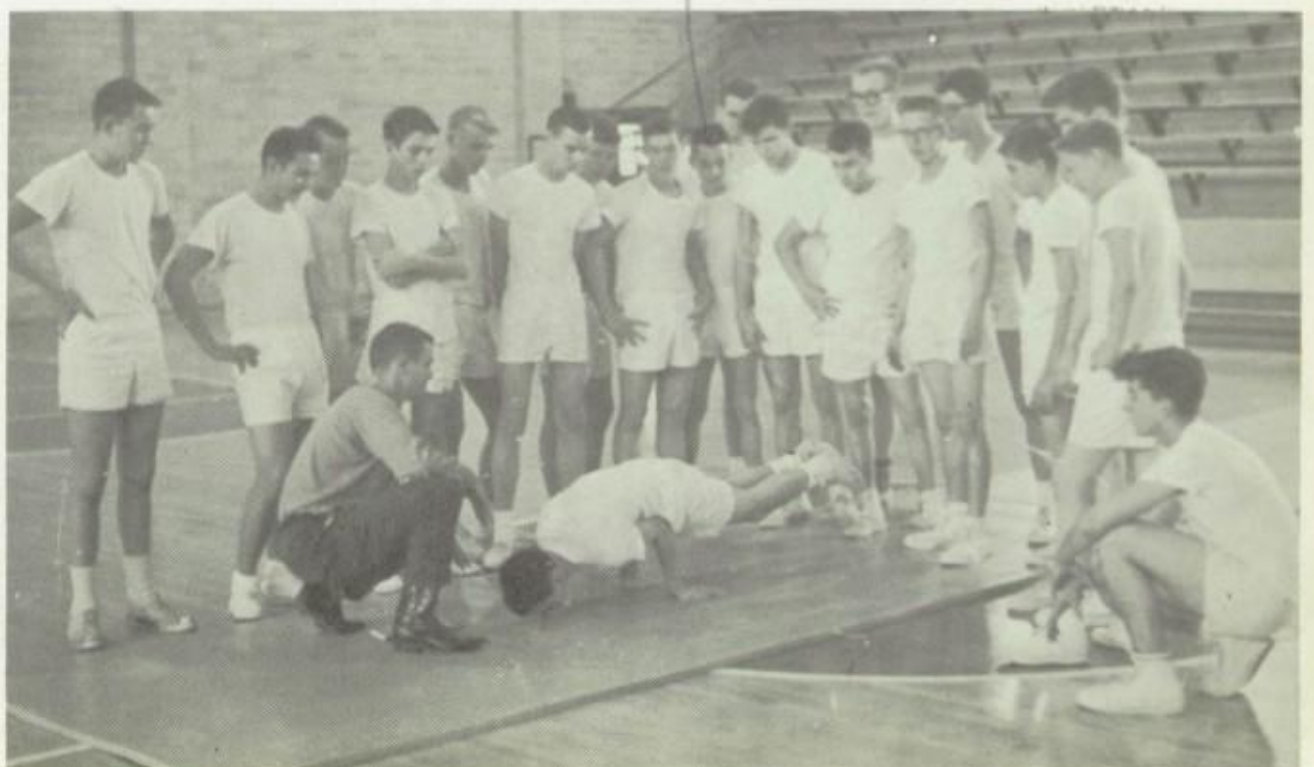

"Now I know why the teacher asked if I had a strong back."

The boys' physical education classes are instructed by Mr. C. E. Jacobson and Mr. Harry Dodd.

Boys become well-acquainted with various sports and other athletic activities, and learn the value of fair play and good sportsmanship, which contribute to their growth into manhood.

"Look Mom, no hands!"

"But I don't see it anywhere, Coach."

Loran,

Library

An immaculate new library — what an appreciated improvement to the school!

Here a wide selection of reference material and magazines, novels and short stories, poetry and plays is available to the students.

Mrs. Blanche Sparks, librarian, is a very valuable assistant to all who make use of the library.

"This looks like a good book to read."

Mrs. Sparks helps Cathy check out a new book.

The library reading room.

Guidance

The guidance department is under the direction of Mrs. Julia K. Sparger and Mrs. Mary E. Busch. Throughout the day students have an opportunity to talk with the counselors and discuss the many preparations necessary for colleges and careers.

Mrs. Sparger and Mrs. Busch are also testing supervisors. Complete records of test results of all students are kept by this department.

"When I say ready, you may begin."

Mrs. Busch shows Diana her test results.

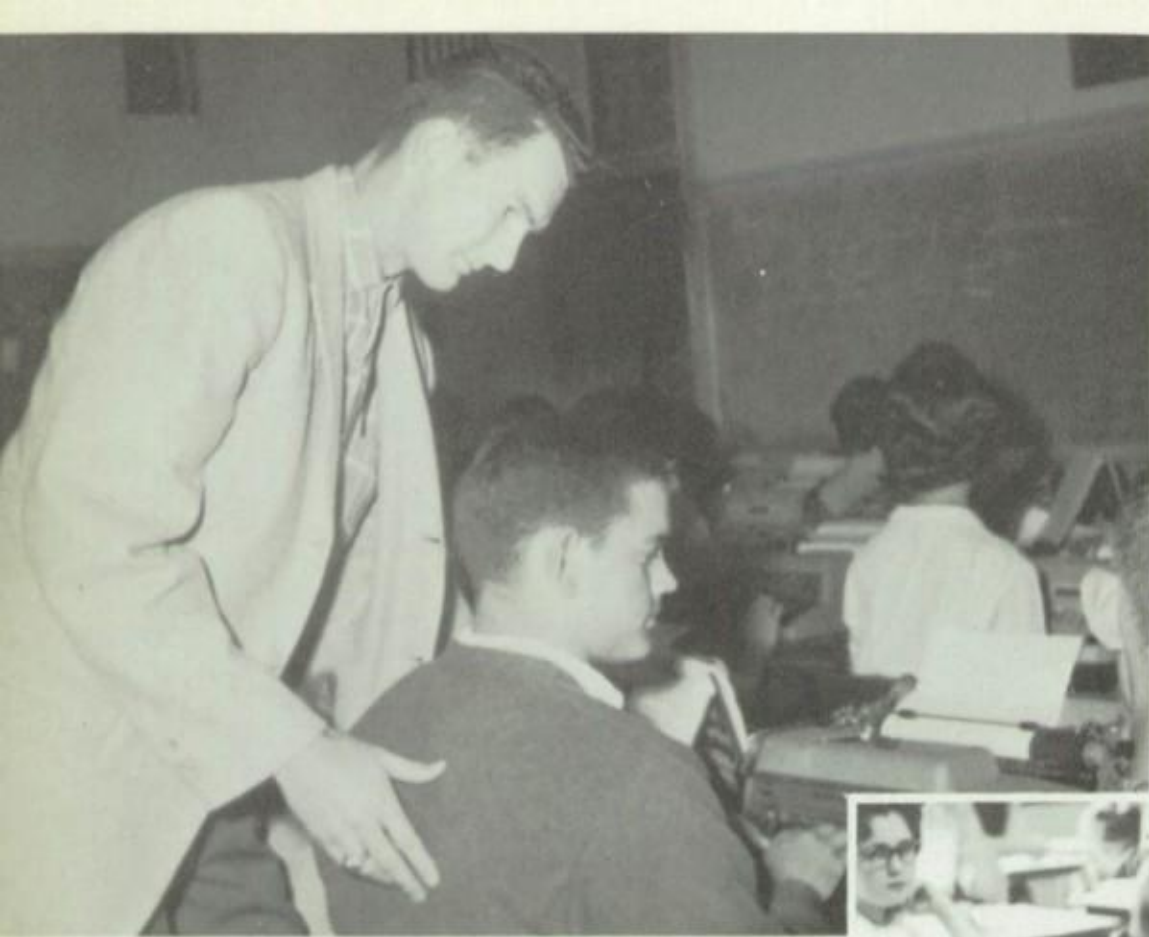

Mrs. Sparger grades one of the many tests she gives throughout the year.

Business Education

Fundamentals of the business world are presented in the business courses offered by Ardmore High School.

In addition to giving students a good background in commercial professions, these courses are also practical in most phases of any work.

Mrs. Louise Akers instructs students in shorthand, transcription, and bookkeeping. Mr. Lyndon Lee teaches typing.

"That's it, Will . . . asdf-jkl."

"Girls, take this letter."

"Get ready, Go."

"No, Jenny, it's a debit, not a credit."

Audio-Visual Education

The Audio-Visual Department has charge of films, recorders, and other services which enrich our education.

The department is under the supervision of Mrs. Irene McGoodwin, who is assisted by office girls and student projectionists.

What's this? A group of recording stars?

Johnny and Richard practice winding the film.

"Which way do I turn the key?"

One of the most valuable and beneficial courses offered is Driver's Education.

Under the competent direction of Mr. Eugene Todd, all the aspects of driving, buying, and caring for a car are learned.

MR. ALBERT FITZGERREL
Director

The Pride of AHS is, indeed, one of which the school can be proud. The honors and recognition it has received are innumerable. In the state contest at Chickasha, the band received superior ratings in field marching and inspection, placed first in class BB division in street marching, and placed third in the Sweepstakes in competition with thirty bands.

The Pep Band, composed of 15 members, also plays an important role in school. Its part in pep assemblies and basketball games is invaluable.

Director of the band is Mr. Albert Fitzgerald with Mr. Raymond Gabbard as instrumental assistant.

Criterion

Memories are valuable and priceless treasures which can make everyone's life a little richer.

The 1962 CRITERION is a composite of memories of this school year. It belongs to you—all of Ardmore High School. Through pictures and words the staff has endeavored to preserve the activities and people which have made this year memorable.

Tiger Topics

"Four hostile newspapers are more to be feared than a thousand bayonets." — Napoleon I

These words convey the spirit of newspaper in democracy. The same high principles and ethics which govern other newspapers of this country also apply to Tiger Topics. By working on the paper, the journalism students gain both a knowledge of the mechanics of publishing a newspaper and a deeper understanding of the importance of the "Fourth Estate."

The ensembles perform for both the school and civic clubs.

The Madrigal Choir, newly organized this year, is a select group of about twelve singers. In keeping with the tradition of sixteenth century madrigals, members sing without either musical accompaniment or a director.

Girls' State - Boys' State

"L'etat c'est moi." ("It is I who am the state.")

As a democracy can only be as strong as its people, all citizens are faced with much responsibility.

To train and prepare students for leadership and citizenship, the American Legion and the American Legion Auxiliary each year sponsor Girls' State and Boys' State.

In Oklahoma, Girls' State is held at Chickasha and Boys' State at Norman. For one week during the summer, delegates gain valuable experience in having the opportunity to actively participate in democratic government.

Boys' Nation

Being chosen as a delegate to Boys' Nation is indeed an honor for Mike Frazier as only two boys from each state are selected to attend. Boys' Nation is held at the University of Maryland for one week each summer.

Tournaments

The Ardmore Tigers participated in the McGuiness Invitational Tournament this year. In their first game they ran up against stiff competition in the form of Oklahoma City Douglass. Although Douglass beat the Tigers 67-51, they later had to forfeit because of an ineligible player.

On first entering the consolation flight, the Tigers defeated St. Mary's of Oklahoma City, 72-32. They followed this with a 60-45 victory over Del City to win the consolation flight of the tournament.

Ardmore entered the Regional Tournament at Duncan on March 2, where they played Lawton in the first outing.

ACTIVITIES

Activities

Carl's Dairy Queen, adjacent to the school parking lot, is a popular place at lunch time and after school. What could be more refreshing than a coke, hamburger, hotdog or malt after a day at school?

The Student Council has sponsored several mixers throughout the year such as the Toys-for-Tots mixer held at Christmas. At this mixer SC members presented a humorous skit of "Baby for a Day."

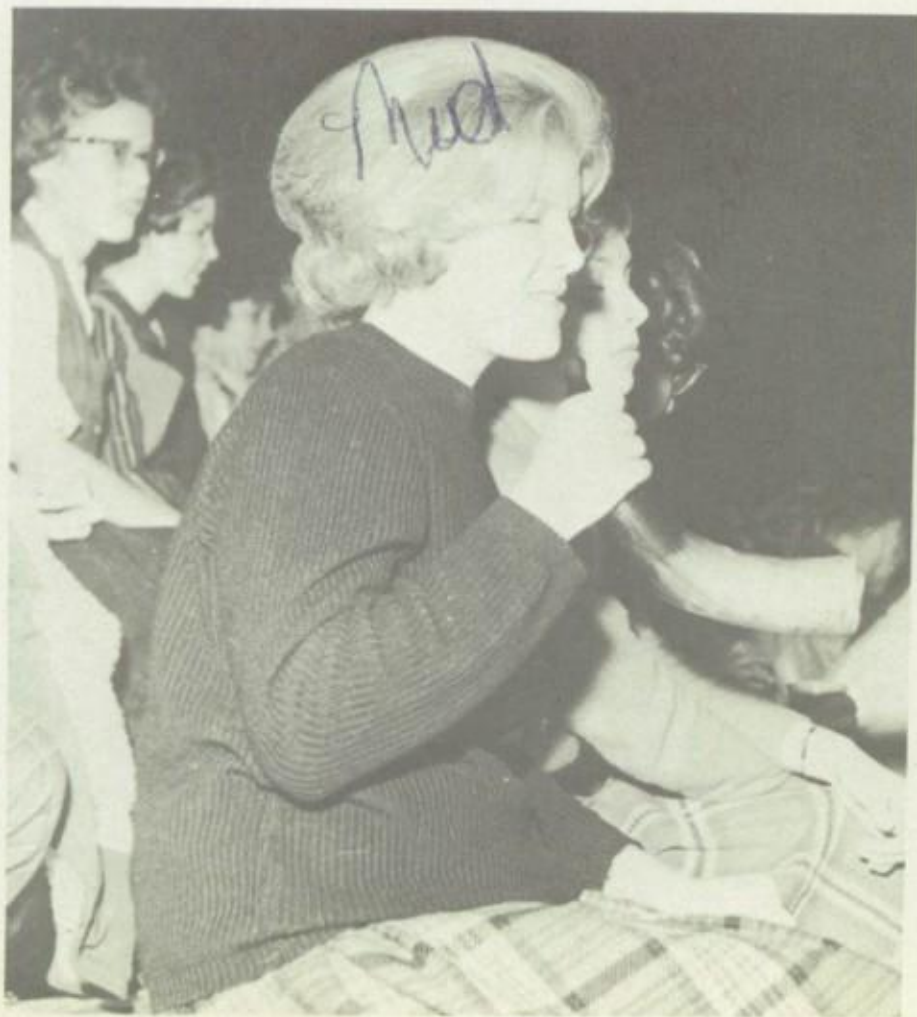

The cheerleaders often enliven the pep assemblies by presenting skits for the students. One of the most entertaining pep rallies of the year was one in which the cheerleaders and the football players temporarily swapped identities.

Time-consuming, but worthwhile is a good description of the work of many students on this year's all-school play "Death Takes A Holiday." Everyone, from the stagehands to the leading actors and actresses, did their best to make the production a success.

Basketball games are a part of the midwinter excitement of AHS. About once or twice a week students have the opportunity of seeing their team in action in both home and out-of-town games.

"Dragging the Super Dog" is a tradition of AHS students. After school, on a date, or just about any time, this is one of *the* places to be.

Movies consume much of the students' time. Every week-end, and occasionally on school night, they may be found at either the downtown theaters or out at one of the drive-ins.

At AHS coronations always seem to have a special touch of charm and enchantment, whether the students are selecting the football queen in the fall, the basketball sweetheart in midwinter, or the band queen in the spring.

Lara Jean,

I really think a lot of you. I feel like you're my little sister. You're a very pretty girl and also very smart. You are very sweet because you have a very sweet mother (and brother) Always stay like you are. If you don't I'll turn you over my knee. I'll miss you next year.

Love,
Gayla

Lora,

I've really enjoyed being with you this year in the "Pride of AHS". It's been fun in study hall too. Lots of luck in your future years and May God bless you in all that you do.
